An example of a service bureau service is the salesforce.com service business model).

4.2 **Safety, Critical, and Lifesaving Applications.** Safety is Your responsibility. To the extent You use the Materials to create, or as part of, products used in safety-critical applications designed to comply with functional safety standards or requirements (“Safety-Critical Applications”), **it is Your responsibility to design, manage and assure system-level safeguards to anticipate, monitor and control system failures, and You agree that You are solely responsible for all applicable regulatory standards and safety-related requirements concerning Your use of the Materials in Safety Critical Applications. 4.4 **Media Format Codecs and Digital Rights Management.** You acknowledge and agree that Your use of the Materials or distribution of the Materials with Your Product or Your Project as permitted by this license may require You to procure license(s) from one or more third parties that may hold intellectual property rights applicable to any media decoding, encoding or transcoding technology (such as, for example, through use of an audio or video codec) and/or digital rights management capabilities of the Materials, if any. Should any such additional licenses be required, You are solely responsible for obtaining any such licenses and agree to obtain any such licenses at Your own expense.

Anonymous data collection by the Materials does not include: (a) any personal or personally identifiable data of You, an end user or a data subject; (b) data or information identifying a business entity; or (c) data or information about non-Intel software. The purpose of the anonymous data collection by the Materials is to enable Intel to develop, improve, and support Intel's products and services.

5.2 **Provisioning Data Collection.** Provisioning data may be collected and transmitted to Intel as a one-time event during installation in order to activate the Materials. This collection may be mandatory and a condition of using the Materials in order to verify the right to use the Materials. Provisioning data includes the Material's unique serial number and it may be combined with

other information about the Materials and Your Computer. Provisioning data is not shared with or disclosed to parties outside of Intel. Intel may retain the provisioning data indefinitely.

5.3 **Other Data Collection.**

- A. Collection of Registration Data. Some Materials may require registration of the Materials with Intel during installation. The information currently collected during registration is Your first name, Your last name, Your email, Your company, and Your country. The registration information is subject to change, however, You will be notified at the time of registration what information will be collected, why it is being collected, how long it will be retained by Intel, and how to have Your registration information removed from Intel's registration database if You so choose to do so at a later date.
- B. Optional Collection of Analytical Data. You may be given the option during installation of the Materials to consent to the collection of analytical data. Analytical data may include technical information about Your software installation and runtime status (such as installation metrics, serial number, counters, flags, and timestamps), and Your development environment (such as operating system, CPU architecture, and other Intel products installed). You will be notified at the time of installation what analytical data will be collected *if You agree to such collection*, why it is being collected, how long it will be retained by Intel, and how to stop the collection of analytical data if You so choose to do so at a later date.
- C. Required Collection of Analytical Data. For certain Materials, the collection of analytical data as described in Section 4.3 B may be a requirement of use. In these cases, You will be given notice and the option to cancel the download or installation of the Materials if you do not wish to consent to the collection of analytical data.

Intel does not assume (and does not authorize any person to assume on its behalf) any other liability.

Intel may make changes to the Materials, or to items referenced therein, at any time without notice, but is not obligated to support, update or provide training for the Materials under the terms of this Agreement. **Intel may in its sole discretion offer such support, updates or training services under separate terms at Intel's then-current rates.** You may request additional information on Intel's service offerings from an Intel representative.

(iv) loss of anticipated savings; (v) loss of business; (vi) loss of opportunity; (vii) loss of goodwill; (viii) loss of use of the Software; (ix) loss of reputation; (x) loss of, damage to, or corruption of data; or (xi) any indirect, incidental special or consequential loss of damage however caused (including loss or damage of the type specified in this Section 6).

9. **USER SUBMISSIONS.** This Agreement does not obligate You to provide Intel with materials, information, comments, suggestions or other communication regarding the Materials. However, You agree that any material, information, comments, suggestions or other communication You transmit or post to an Intel website (including but not limited to, submissions to the Intel Premier Support and/or other customer support websites or online portals) or provide to Intel under this Agreement are not controlled by the International Traffic in Arms Regulations (ITAR) or the Export Administration Regulation (EAR), and if related to the features, functions, performance or use of the Materials are deemed non-confidential and non-proprietary ("Communications"). If You wish to provide Intel with information that You intend to be treated as confidential information, Intel requires that such confidential information be provided pursuant to a non-disclosure agreement ("NDA"), so please contact Your Intel representative to ensure the proper NDA is in place.

Nothing in this Agreement will be construed as preventing Intel from reviewing Your Communications and errors or defects in Intel products discovered while reviewing Your Communications. Furthermore, nothing in this Agreement will be construed as preventing Intel from implementing independently-developed enhancements to Intel's own error diagnosis methodology to detect errors or defects in Intel products discovered while reviewing Your Communications or to implement bug fixes or enhancements in Intel products. The foregoing may include the right to include Your Communications in regression test suites.

10. **NON-DISCLOSURE.** The following provisions will apply if there is no existing non-disclosure agreement between You and Intel. The Materials are the Confidential Information of Intel. You will maintain the confidentiality of Intel's Confidential Information with at least the same degree of care that You use to protect Your own confidential and proprietary information, but no less than a reasonable degree of care under the circumstances. You will only disclose the Confidential Information to Your employees who have a need to know and who agree to abide by nondisclosure terms at least as comprehensive as those set forth herein; provided that You will be liable for breach by any such employee. For the purposes of this Agreement, the term "employee" will include Your independent contractors, who have signed confidentiality agreements with You. You will not make any copies of the Confidential Information except as necessary for Your employees with a need to know. Any copies which are made will be identified as belonging to Intel and marked "confidential", "proprietary" or with similar legend. You will not be liable for the disclosure of any Confidential Information which is (a) generally made available publicly or to third parties by Intel without restriction on disclosure; (b) rightfully received from a third party without obligation of confidentiality; (c) rightfully known to You without any limitation on disclosure prior to Your receipt from Intel; (d) independently developed by Your employees; or (e) required to be disclosed in accordance with applicable laws, regulations, court, judicial or other government order, provided that You will give Intel reasonable notice prior to such disclosure and will comply with any applicable protective order.

11. **TERMINATION OF THIS LICENSE.** This Agreement becomes effective on the date You accept this Agreement and will continue until terminated as provided for in this Agreement. If You are using the Materials under a time-limited license, for example an Evaluation License, this Agreement terminates without notice on the last day of the time period, which is specified

in the Materials or on Intel's website, and/or controlled by the serial number for the Materials. Intel may terminate this license immediately if You are in breach of any of its terms and conditions and such breach is not cured within thirty (30) days of written notice from Intel. Upon termination, You will immediately return to Intel or destroy the Materials and all copies thereof. In the event of termination of this Agreement, the license grant to any Materials or Redistributables distributed by You in accordance with the terms and conditions of this Agreement, prior to the effective date of such termination, will survive any such termination of this Agreement. Sections 1, 5, 6, 7, 8, 9, 10, 11, 12, and 13 will survive expiration or termination of this Agreement.

12 U.S. GOVERNMENT RESTRICTED RIGHTS. The technical data and computer software covered by this license is a "Commercial Item," as such term is defined by the FAR 2.101 (48 C.F.R. 2.101) and is "commercial computer software" and "commercial computer software documentation" as specified under FAR 12.212 (48 C.F.R. 12.212) or DFARS 227.7202 (48 C.F.R. 227.7202), as applicable. This commercial computer software and related documentation is provided to end users for use by and on behalf of the U.S. Government, with only those rights as are granted to all other end users pursuant to the terms and conditions herein. Use for or on behalf of the U.S. Government is permitted only if the party acquiring or using this software is properly authorized by an appropriate U.S. Government official. This use by or for the U.S. Government clause is in lieu of, and supersedes, any other FAR, DFARS, or other provision that addresses Government rights in the computer software or documentation covered by this license. All copyright licenses granted to the U.S. Government are coextensive with the technical data and computer software licenses granted herein. The U.S. Government will only have the right to reproduce, distribute, perform, display, and prepare Derivative Works as needed to implement those rights.

This Agreement, including without limitation its termination, has no effect on any signed non-disclosure agreements between the parties, which remain in full force and effect as separate agreements to their terms. Each party acknowledges and agrees that in entering into this Agreement it has not relied on, and will not be entitled to rely on, any oral or written representations, warranties, conditions, understanding, or communications between the parties that are not expressly set forth in this Agreement. The express provisions of this Agreement control over any course of performance, course of dealing, or usage of the trade inconsistent with any of the provisions of this Agreement. The provisions of this Agreement will prevail notwithstanding any different, conflicting, or additional provisions that may appear on any purchase order, acknowledgement, invoice, or other writing issued by either party in connection with this Agreement. No modification or amendment to this Agreement will be effective unless in writing and signed by authorized representatives of each party, and must specifically identify this Agreement by its title and version (e.g., "End User License Agreement for the Intel(R) Software (Version October 2018)); except that Intel may make changes to the Agreement as it distributes new versions of the Materials.
